

DELIVERING EXCEPTIONAL INVESTMENT EXPERIENCE

/advisory

We work with you closely to understand goals and constraints to come up with the most effective strategies and assets that balances between your budget, needs and preferences whether you are acquiring homes for family use or assets as part of your investment plan.

/acquisition

From incentives to working with your conveyancing lawyers on contract terms, we work with our clients closely through the acquisition process. This can include obtaining pre-approvals from banks, coordinating with high commissions, obtaining foreign purchase approvals, arranging for notarisations for official documents and more.

/financing

Financing for overseas assets can be done with onshore or offshore banks and lending institutions. We work with you closely to determine what are the best options taking into consideration your personal and financial profile and ensuring that your application is successful.

/management

We work with selected partners including property managers and accountants around the world to help you in qualify and sign up tenants as well as managing rental collections, regular inspections, repairs, accounting, tax filing, insurances and various fee payments.

/portfolio

Where needed, our partners that include some of the renowned law firms, consulting companies and private banks are able to provide advices in the areas cross border legacy planning, international tax management and various other money matters with regards to your global property portfolio.
